## EXECUTIVE EXPERIENCE

### PROJECT MANAGER, FOUNDER

The Great American Debate | September 2018 - Present

*The Great American Debate is a livestream presentation and reveal of a revolutionary new kind of debate map, called a canonical debate map, in partnership with Canonical Debate Labs (in development)*

- Negotiated a collaboration between four debate technology development organizations to combine labors to deliver the Great American Debate
- Secured partnership to fund the development of a robot co-host for the event, built by a Disney robot and animatronics contract engineer

### EXECUTIVE DIRECTOR, FOUNDER

The Society Library | Oct 2013 - Present

*The Society Library is a 501(c)3 non-profit digital platform which archives, organizes, and analyzes information for the purpose of public education and empowerment*

- Facilitated the acquisition of over 43 million scholarly works for our archives and for analysis
- Developed new processes for multi-medium qualitative analysis and argument extraction
- Stewarded academic and tech partnerships for argument mining and topic modeling capabilities

### EXECUTIVE DIRECTOR, FOUNDER

The Internet Government | May 2018 - Present

*An internet-based, independent legislative branch which supports a marketplace of ideas and a decentralized content analysis process to develop public policy based on more comprehensive representation of people.*

- Solidified partnership with international big data and social listening firm to provide big data capture and analysis capabilities
- Leads international team of developers and researchers who either specialize in our public policy topic of interest or argumentation and debate tech
- Developing never-before seen digital governance model

### CHIEF OPERATIONS OFFICER

IDEAS For Us | Sept 2017 - May 2018

*IDEAS For Us is a 501(c)3, United Nations accredited, international NGO which develops, funds, and scales sustainable development projects and programs in over 20 countries.*

- Was responsible for the NGO's ongoing operations, managed our tech team, supported and was reported to by our Program Directors (international and domestic), worked directly with CEO to support fundraising activities, and represented NGO at the United Nations
- Reinvigorated our international partnership program, won acceptance to an accelerator with a prestigious university on behalf of our Fleet Farming program

### SOLUTIONS FUND CHAIRPERSON

IDEAS For Us | July 2016 - April 2018

*The Solutions Fund is an international micro-philanthropy and project development program.*

- Built program from the ground up and successfully led a committee of remote volunteers, a world-renowned environmental sociologist, and our International Director for three funding cycles
- Developed best practices picked up by one of the nation's largest micro-granting philanthropy
- Reached gender parity in international applicant pool through strategic partnerships stewarded by me
- Funded and oversaw over 30 international projects in 17 countries and developed international data collection methods for ongoing project oversight

## CONTINUED

### CAMPAIGN STRATEGIST AND ADVISOR

IDEAS For Us | July 2016 - Sept. 2017

- Supported Ugandan team of inventors winning recognition by the 2016 MIT Climate CoLab competition by organizing a 3-day hackathon (given 1hr notice) to gain the most social media votes on their Vertical Vermicomposting Micro-gardening structure; a farming technique to bring closed-cycle household farming capabilities to urban areas in Kampala, Uganda
- Was granted campaign strategist and advisor position to support domestic and international program development and individualized project fundraising efforts

### CO-FOUNDER & PROJECT MANAGER

World Wide Web Peace Project | June 2016 -August 2017

The World Wide Web Peace Project was an archival effort to preserve community art and public displays of expression following the Pulse Nightclub Shooting in Orlando. All archived materials currently held by the local historical center.

- Responded immediately to preserve community contributions which were endangered by the elements before the historical society was permitted by the city to respond

## ADMINISTRATIVE EXPERIENCE

### LAB ADMINISTRATOR

RETRO Labs | March 2010 - Feb 2011

RETRO stands for, "Recent and Emerging Technology Research Organization," and specializes in the academic study of serious games as well as the canon of virtual/interactive training and learning systems, developed within the Institute of Simulation and Training (IST).

- Duties included managing lab travel, payroll, data backup and digital file management, equipment purchasing and storage, general record-keeping, HR support, grant-writing, sociological research, event/conference planning, and overseeing the performance of scientific studies

### HEAD RECEPTIONIST

Institute of Simulation and Training | October 2008 - March 2010

"The UCF Institute for Simulation and Training is an internationally recognized research institute that focuses on advancing human-centered modeling and simulation technology and increasing our understanding of simulation's role in training and education." - <https://www.ist.ucf.edu>

- Was promoted within a month, given three internal job offers once a move dissolved the position

## PERSONAL VALUE PROPOSITION

- Appreciates and practices a critical action agenda without limiting creative problem solving or curbing idealistic goal orientation
- Has experience managing teams of professionals, programmers, volunteers, and students; and can reliably drive projects to completion.
- Designs project plans to the most minute detail, enabling teams to work within clearly defined scope, empowered with guides and plans to enable effective, self-driven work

## VOLUNTEER ACTIVITIES

I volunteer occasionally for the following organizations: LEGO League Robotics (Core Values Judge), Burning Man (Artery Volunteer), Decentralized Dance Party (Global Coordinator), MakerFaire (Events Volunteer), Opera Del Sol (VIP Gifts), as well as support friends in the arts, education, and humanitarian spaces.
